September 13, 2010

Dear Members of the Cape and Islands United Way Grant Application Committee,

Please accept this letter as an endorsement of the Martha's Vineyard Youth Leadership Initiative.

The MVYLI guides and supports students from the Island to better understand our world through projects that involve reaching across borders to ensure a healthy and sustainable future for all. The 2010 MVYLI Summit that took place this summer on Martha's Vineyard attracted a diverse group of students to study, research and discuss topics such as sustainable farming, ecosystems and climate change. The students and teachers from the Martha's Vineyard Public Charter School who participated in the week-long summit came away with an appreciation of the work and thought that needs to go into these areas which impact all habitants of the globe. They are pleased about the work they accomplished this summer and are passionate to want to continue making strides through this effort.

It is my hope that your committee will give this application serious consideration.

Regards,

Robert M. Moore
Director
